PROFILE

Software engineer in Helsinki with 4+ years of building web applications and back-end services with TypeScript, Node.js, React and Java. At Air Dice Oy I build the internal tools four teams and our clients rely on, so I care about reliability, testing and maintainable code. I work with AI assistants like Claude Code and GitHub Copilot, and I review and test everything they write. My years as a manager taught me to take responsibility and drive work forward.

EXPERIENCE

Software Engineer · Air Dice Oy

Jun 2023 – Present

- Build and maintain the internal monitoring, tracking and game management tools used by 4 teams and our clients, and support the people who use them.
- Develop promotional tools that boost player engagement across 200+ games.
- Prepare, test and deploy new games to QA and test environments, with 100+ games shipped so far.
- Take part in architecture decisions for our tools and write clear documentation.

Java · TypeScript · Node.js · Vue.js · Docker · Jenkins · Jira · Agile · Claude Code

Full-stack Developer · Integrify

Aug 2022 – Jun 2023

- Built and documented REST APIs with Node.js, Express and Java on SQL and NoSQL databases, unit-tested with Jest.
- Built front ends with TypeScript, React and Redux, with a focus on accessibility and animation.
- Used Docker, CI/CD pipelines in GitHub Actions and AWS on real-world projects with developers of every seniority.

IT Helpdesk Intern · Oodi Helsinki Central Library

Apr – Jun 2019

- Helped 100+ IT customers a day and maintained devices, IT services and backups at a library with 1,000+ daily visitors.

Accountant Manager · Iraq Oil

Oct 2011 – Jun 2014

- Led a team of 25 station workers and managed the accounts of several gas stations and oil depots, with €70k in average daily sales.

SELECTED PROJECTS

Blog Post App

github.com/Ammar-daham/blog-post-client

Full-stack blogging app with sign-up, posts, likes and comments, on my own REST API with JWT authentication.

React · Redux Toolkit · Node.js · Express · MongoDB

Portfolio Site

ammardaham.fi

My site and CV in English and Finnish. Built with Claude Code: every change goes through a pull request that I review, with lint, tests and build checked in GitHub Actions.

React · Vite · Vitest · Testing Library · GitHub Actions · Netlify · Claude Code

Salon Booking Platform

github.com/Ammar-daham/salon

Booking system for salons and beauty centres, built to run several salons at once, with an admin panel for scheduling and dashboards. In progress.

Java 21 · Spring Boot · PostgreSQL · Next.js · TypeScript · Tailwind CSS · Claude Code

SKILLS

Languages

TypeScript · JavaScript · Java · SQL

Back end

Node.js · Express · REST APIs · Spring Boot · GraphQL

Front end

React · Vue.js · Next.js · Redux · HTML · CSS · Tailwind CSS

Data

PostgreSQL · MySQL · MongoDB

Cloud & delivery

AWS · Docker · Jenkins · GitHub Actions · Jest · Vitest · Git · Linux

AI-assisted development

Claude Code · GitHub Copilot

EDUCATION

B.Eng. in Information Technology

Metropolia University of Applied Sciences · 2020 – 2024

Vocational qualification in ICT

Omnia Vocational School · 2018 – 2020

B.Sc. in Computers and Mathematics
